iOS/Mac Users

IconX 2018 can be used to stream music or take calls from your iOS handset or tablet. Fitness functions that require the use of Samsung Health app are not available for iOS.

Pairing your IconX 2018 with your iOS handset or tablet

On your IconX 2018: Press and hold the Bluetooth button on the IconX 2018 to enable pairing mode.

On your iOS device: Setting > General > Bluetooth to begin searching for the IconX 2018. Select IconX 2018 from the list of available headsets to complete pairing.

This will enable you to stream music or take calls for your iOS device.

To transfer audio files to the IconX 2018

Download the Gear Manager app for Mac at:

www.samsung.com/us/support/answer/ANS00078087/

Files must be in one of the following formats: MP3, M4A, AAC, WAV, WMA (WMA v9)

Gear Manager does not support iOS

¹iOS compatibility: compatible with select Bluetooth capable devices using Android 4.4 and higher with at least 1.5 GB RAM. Music streaming and hands-free controls available to iOS users only via Bluetooth. For best results, connect with compatible Samsung Galaxy devices.

²Only available via MAC APP

³Samsung Health 5.13v or higher required

⁴Supported by Android devices only via Gear Manager (Mobile APP)

⁵Connect to Gear Manager at least once
